

**Attendance Report: Virtual Public Participation Information Meeting  
Saratoga Biochar Solutions  
NYSDEC Application No. 5-4144-00187/00001  
December 19, 2022**

**Participants who registered and joined on a device  
*114 total unique virtual participants/devices***

**Notes regarding the following attendance list:**

- The total “unique” phone participants list is unavailable due to Microsoft’s reporting software assigning a unique caller code to each phone dial-in. During the forum, individual phone numbers appeared on the screen, but that specific information is not available within the post-event report generated by Microsoft Teams. Although this document shows 52 dial-ins, some of those were the same person joining, leaving, and joining again.
- The number of attendees visible within the recording at any given time during the recording only represents attendance at exactly and only that time. Viewers joined and left throughout the forum. This report demonstrates that 114 total virtual participants joined alone, plus numerous phone callers at any given time. Total “joins” by both virtual and by phone only (dial-in) were 166. The total unique participants estimate is in the 140-150 range, given the difficulties with phone reporting noted above.
- Registrants were able to identify themselves however they chose. Likewise, actual virtual participants could identify themselves and their Microsoft accounts any way they chose. So attendees called Leion, RB, John, Sharon, Saratoga Biochar, Meyers, DS, Lin and Brett all cannot be identified beyond those names. Additionally, Hands Off The Hudson tried to join at least four unique times with different variations of their name, but with no individual names used.
